

Maintenance Planning and Scheduling

Apr. 1 – Apr. 2, 2025

A well-planned maintenance job will have a positive impact on both the MTTR (Mean Time to Repair) making the maintenance organization more effective, and the OEE (Overall Equipment Effectiveness) improving the output of the equipment.

This course will provide the skills and strategies you need. Participants will receive real-life, hands-on experience while learning the importance of effective maintenance planning and scheduling strategies.

Course Highlights

Planning and Scheduling is the heart of a successful maintenance program. In this module you will learn:

- Effective strategies utilized by successful maintenance organizations
- How to use data to drive the scheduling process
- The importance of a Computerized Maintenance Management System
- How to define the Key Performance Indicators to begin to measure your success

Visit mrcpa.org/events for full course details.

Who Should Attend

The program is aimed at current and aspiring maintenance managers, engineers, supervisors, planners, or anyone who has a direct interest in building and sustaining a world-class maintenance program.

Instructor | Jeffrey Craig, CMRP | Reliability & Maintenance Professional |
Fuss & O'Neill Manufacturing Solutions

Jeff has more than 30 years of experience in Engineering and Maintenance Management. A natural leader, Jeff has spent his career training both civilians and military personnel in the art of technical and program management. He is an expert in safety program management and has extensive process improvement experience.

As a Reliability and Maintenance Professional for Fuss & O'Neill's Manufacturing Solutions, Jeff works with clients to integrate total process management to improve efficiency, safety, and the bottom line. Jeff is an expert and proponent of TPM (Total Productive Maintenance) and Maintenance Excellence procedures because he has seen, firsthand, the benefits these practices bring. He integrates his practical experience into classes to emphasize real-world applications and to effectively communicate the subject matter. He focuses on individualized client attention and recognizes that an off-the-shelf approach is never an option.
