

# From Data to Decisions: Manufacturing & Power BI

## Oct. 23, 2024

Complimentary Webinar

In today's data-driven world, leveraging data is essential for effective decision-making and business growth. However, given the various data sources within a typical manufacturing company, extracting and analyzing data can be a challenge.

Join us for this complimentary webinar and learn how leveraging Microsoft Power BI to streamline this process provides employees with direct access to real-time, actionable insights without the need for advanced technical skills. Designed to save time and resources, Power BI's user-friendly tools offer immediate data access while empowering employees to make informed decisions, whether for quick overviews or deep analysis.

HCSC is a solution provider capable of delivering a customized solution that fits your needs.

 **Oct. 23, 2024**

 **10:00 AM – 11:30 AM**

 **Complimentary Webinar**

 **Virtual via Zoom**

 **Registration is required:**  
[mrcpa.org/events](https://mrcpa.org/events)

\*Fees and times subject to change. Visit [mrcpa.org/events](https://mrcpa.org/events) for current details.

## Webinar Highlights

- Discover how Microsoft Power BI simplifies data analysis for all skill levels.
- Learn how to unlock valuable insights from your data to drive smarter business decisions.
- Explore real-world case studies that showcase how data analytics can optimize your operations.
- Gain actionable tips for tracking and leveraging data in real-time for better performance.
- Understand how to streamline your data processes, save time, improve efficiency and recognize cost savings to your organization.

## Who Should Attend

CEOs, CFOs, COOs, Production Managers, Quality Control Managers, BI Analysts, etc.

## Presenters

**Nic Loew** | Business Intelligence Analyst, HCSC Solutions

With a passion for data, Nic helped pioneer Hospital Central Services' data analytics program and has created a dashboard network that has empowered them to make data-driven decisions to significantly reduce costs, retain customers, and increase revenue. From Nic's work, HCSC Solutions was created to help other organizations better utilize their data. Nic graduated from Houghton College in 2017 with Bachelors in Data Science and Mathematics and a minor in Computer Science. Nic has 7 years of experience managing databases, developing data models, optimizing reports, and delivering impactful solutions.

**David Camardella** | Vice President of Information Technology, HCSC Solutions

David has more than 20 years of experience as a systems architect, network engineer, and IT leader. Currently, he is responsible for providing leadership to IT services, infrastructure, cyber security, and data analytics teams. He frequently manages projects and guides teams through Operational Excellence (OpX) process improvement initiatives. David holds a Master of Business Administration degree from DeSales University.
